- Technical & Product Presentations

Over **+ 7000** trade visitors

More than **+ 100** exhibitors

A meeting point for top Contractors, Building Engineers, Architects, Building Owners & Management, Developers, Consultants, Structural Engineers, Professionals, Importer, Exporter and Distributor.

INDONESIA your key to sales success.

“It is expected that the number of skyscrapers in Jakarta to double by 2015 as developers tap into the booming demand for property. And within the next 5 - 10 years, Jakarta will be among the top of 20 ASIA City.”

Indonesia, considered one of the next economic giants of the MINT countries, is Asia’s biggest and most attractive market. Economic projections estimate the country will leap ahead of Germany and the UK to become the world’s 7th largest economy by 2030.

The security business market in Indonesia has steadily increased in recent years. This is in line with the increasing public awareness related to security and the high level of crime. With such tremendous growth, the current business security market that includes CCTV, alarm, access control and surveillance in Indonesia reaches Rp 2 trillion per year. The number will certainly be greater. Today, security needs are not just for corporations and companies. Retail and household sectors are increasingly using CCTV as a security system.

Exhibit Profile

- CCTV
- Digital Surveillance
- Access Control
- Intrusion Detection
- Intercoms
- Transmission
- Management Platform
- Building & Home Automation
- Fire and Safety Products
- Manned Security Service
- Facility Management Systems
